

Policy on Assistance for Ministry Assessments

Ordinarily someone under care of the Presbytery of Greater Atlanta is eligible for up to \$3000 of scholarship assistance, which is available by application once they have entered the process as an Inquirer. However, should the Ministry Assessment present a financial burden and the person plan to complete it before becoming an inquirer, she or he may request up to \$100 of additional assistance for the Ministry Assessment. If they are taken under care of the Presbytery of Greater Atlanta, this assistance will be counted towards the \$3000 of scholarships for which they are eligible.

Ministry Assessment assistance from the Scholarship Fund is in addition to the one third of the cost the Presbytery already assumes for a Ministry Assessment and will be paid directly to the service providing the assessment.
